

Curriculum Requirements

What is the class schedule /length for the ST Program?

Students are expected to participate in classroom, lab, and clinical (hospital) experience. The entire program consists of three continuous semesters. Students start in August and graduate the following August.

Fall Semester:

ENG 111-Expository Writing

BIO 163- Basic Anatomy & Physiology - (BIO 168 & 169 is accepted courses substitution)

SUR 110-Intro. to Surgical Technology

SUR 111- Perioperative Patient Care

Spring Semester:

PSY 150- General Psychology

BIO 175- General Microbiology - (BIO 275 is accepted course substitution)

SUR 122- Surgical Procedures I

SUR 123- Clinical Practice I

Summer Semester:

SUR 134- Surgical Procedures II

SUR 135- Clinical Practice II

SUR 137- Professional Success Prep.

It is highly recommended to complete as many of the required general education classes prior to admission into the program.
