

LIBRARY SUBJECT GUIDE – PHOTOGRAPHY

This subject guide consists of a list of selected resources on Photography available in the Catawba Valley Community College Library and on the Internet. Some of the resources listed may also be found in other libraries. Therefore, library patrons may choose to use this guide in their library of choice.

Internet Resources

The Internet contains a vast amount of scholarly information on the topic of Photography. However, information found on the Internet is not always reliable. Patrons will need to use Internet evaluation guidelines when determining the most appropriate sources to use for scholarly research. As with all research, patrons will need to use their critical thinking skills to determine the quality of the material.

Below is a brief list of examples of Photography resources available on the Internet:
